Education

Bachelor of Technology in Artificial Intelligence and Data Science Jul 2020 – Apr 2024
KL University, Vaddeswaram, India CGPA: 8.9

Technical Skills

- **Programming:** Python, Java
- **Databases:** SQL, MongoDB, JDBC
- **AI & ML:** TensorFlow, Prompt Structuring, AI-assisted Development
- **Front-End:** HTML5, CSS3, JavaScript, Lightning Web Components (LWC), Flask
- **Platforms:** Salesforce (SFDC), Apex, Agile

Certifications

- TensorFlow Developer Certificate — Google Developers
- Oracle Cloud Infrastructure Foundations — Oracle

Professional Experience

Tata Consultancy Services (TCS), Pune, India Jun 2024 – Present
Assistant System Engineer
Client: Jaguar Land Rover (JLR)

- Built and enhanced **10+ Lightning Web Components** supporting GTM-related UI workflows.
- Resolved **100+ P2 production and Apex code coverage issues** using AI-assisted debugging.
- Fixed UI alignment and data connectivity issues, including restoring dynamic **vehicle image rendering**.
- Validated and analyzed structured data using **SQL** for reporting and diagnostics.
- Contributed across **15+ Agile sprints** within a **5-member core team** and **20+ member squad**.

Internship Experience

Swecha AP, Guntur, India Sep 2022 – Oct 2022
Machine Learning Intern

- Completed an intensive **24-hour ML bootcamp** focused on real-world data problems.
- Processed and analyzed **10,000+ rows of weather data** on Linux systems.
- Built a **Python-based crop recommendation system** using climatic factors.
- Delivered data-driven insights supporting farmer decision-making.

Projects

AI-Powered Web Scraping Chatbot

- Automated article scraping and structured information extraction using Python.
- Implemented a multi-step workflow from scraping to GUI-based output.

Animal Binary Image Classification Web App

- Developed a Flask application to classify images using TensorFlow.
- Trained models on **2,000+ labeled images**.

Telecom Customer Churn Prediction

- Analyzed customer data using SQL and Python to identify churn patterns.
- Built predictive models to generate actionable insights.
